As of May 1st all games are being pre-screened by the administrator. Therefore this report will reflect the numbers on pre-examination under 2.1 (PEGI statistics) from this month on. Number of Cover Discs rated	1
Total number of ratings approved from PEGI’s launch until now	1373

Also, NICAM receives quite a lot of reactions through the PEGI.info website which have actually been submitted in the wrong category, as they only concern technical problems with games, which should be directed at the publisher or distributor of the game. These e-mails are listed as 'Technical difficulties'.
